Guiding Businesses & Customers To Each Other

April 30, 2004

Mr. Mike Wheelock
Sunbelt Business Brokers

Dear Mike:

I want to thank you again for the professional and thorough way you handled the business search for me. The quality and quantity of potential companies far surpassed that of any of the other brokers I had worked with over the last four years. The company I finally purchased was by far the most exciting opportunity I had seen. It has tremendous potential to expand, yet was fairly priced.

While I was working with you I always felt I was treated fairly, given complete and accurate information and was seeing newly listed businesses.

Sincerely,
